**Case No.: 3:22-cv-265**

**SUPPLEMENTAL DECLARATION OF COLONEL TONYA RANS**

I, Colonel Tonya Rans, hereby state and declare as follows:

1. I am currently employed by the U.S. Air Force as the Chief, Immunization Healthcare Division, Defense Health Agency-Public Health, located in Falls Church, Virginia. I have held the position since June 2017. I am a medical doctor and have been board certified in Allergy/Immunology since 2008 and was a board-certified Pediatrician from 2001-2015.

2. I have previously filed a declaration in this matter and am aware of the allegations set forth in the pleadings. This declaration is based on my personal knowledge, and/or information made available to me during the routine execution of my official duties.

3. As part of my duties, I am able to obtain information regarding the number and locations of the Department of Defense's (DoD) on-hand COVID-19 vaccine doses within logistics departments. I have previously filed a declaration in another matter,

*Coker v. Austin*, No. 3:21-cv-01211 (M.D. Fla.), that appended the DHA Medical Logistics spreadsheet reflecting vaccine lots at various DHA sites. In particular, that spreadsheet provided the number of both BLA-approved, Comirnaty-labeled and BLA-approved, Spikevax-labeled COVID-19 vaccine doses that DoD possessed on-hand and could make available for administration for service members, beneficiaries, and others eligible for COVID-19 vaccine from DoD as of 18 October 2022, sorted by manufacturer, lot number, and location.

4. By this declaration, I am updating my prior declaration filed in *Coker v. Austin* based on new information. I recently reviewed the DHA Medical Logistics spreadsheet with DHA Medical Logistics (“MEDLOG”), and as a result I can confirm that three vaccine lots—GH9697, GH9702, and GJ6665—were incorrectly listed in the DHA Medical Logistics spreadsheet as Comirnaty. These three lots are not lots of Comirnaty, but rather lots of other COVID-19 vaccines that DoD has in its possession.

5. The inaccurate listing of the three lots as Comirnaty was human error, as the logistical information is manually loaded by each immunization site. The sites have been contacted by DHA Medical Logistics to align lots GH9697, GH9702, and GJ6665 with the correct COVID-19 vaccine product.

6. Exhibit A is an updated DHA Medical Logistics spreadsheet with the inaccurate lot numbers removed. As of November 22, 2022, there are 26,616 BLA-approved, Comirnaty-labeled COVID-19 vaccine doses and 1,690 BLA-approved, Spikevax-labeled COVID-19 vaccine doses within DoD available for administration. There are no ordering restrictions for these products.

\*\*\*\*\*

Pursuant to 28 U.S.C. §1746, I declare under penalty of perjury that the foregoing is true and correct. Executed this 28th day of November 2022.
